

# ALEXANDRU LOUTTCHENKO

W E B   D E V E L O P E R

## PERSONAL INFO

**Email** : louttchenkoo@gmail.com

**Phone** : +35797763182

**Location** : Essen ,Germany

## SKILLS

- Javascript
- React
- React-Redux
- commerce.js
- Git/Github
- Firebase
- HTML & CSS
- Flux Architecture
- Material Ui

## PROJECTS

- **Social Network** - single page application that was made in React + React-Redux [Live version](#) - [Code](#)
- **E-commerce** - online shop with payment method [Live version](#) - [Code](#)
- **Galaxy List** - single page application with authentication [Live version](#) - [Code](#)

## EXPERIENCE

**Social-Network** : The application was designed in React + React-Redux. It uses Flux architecture which makes tracing changes during development simpler and makes bugs easier to track down and fix. As back-end was used Firebase (NoSQL real time database).

**E-commerce shop** : This Single Page Application was made with React ,React-Context and with the help of commerce.js (eCommerce SDK), where a user can add / remove items to the cart and purchase them.

**Galaxy todo** : todo list that add / delete todos. Each task is sorted by its time stamp so that the user can prioritize the tasks.This app uses React Hooks , making it easy to manipulate the state of our functional component without needing to convert them into class components.

## ABOUT ME

From the moment I produced 'Hello World' in the console of my first application, I knew I was hooked into the world of software development. And what started with a simple command has become a full-fledged passion that only gets more exciting as the years go by.
